

UROCON 2026

26-28 February 2026
Pokhara, Nepal

28 February, Saturday - Hall B

Instructional Course: Urodynamic Study

Course Faculty

Prof Hammad Ather

Dr Prakash Chhetri

Dr Bipin Maharjan

Course Director
Dr Atul Kasaju
B&B hospital

This course provides a practical overview of urodynamic studies and their clinical indications. Participants will learn to interpret urodynamic parameters and pressure-flow tracings accurately, recognize common artifacts, and apply UDS findings in neurogenic patients for risk stratification and upper tract protection.
